THIS IS YOUR SHIPPING COST GUIDE FOR LINERS (2¼" & 3" Pots)

By checking this guide along with the catalog prices, you can figure approximately how much a liner will cost laid down in your area. These rates are the most that you would have to pay; in some cities the rates are lower than in the state in which the city is located.

For example, the laid down price for *Berberis thun. atropurpurea* to any area in Michigan would be 18c for each 2¼" pot size plant. The laid down price for *Viburnum burkwoodi* to any area in Texas would be 22c for each 2¼" pot size plant and 39c for each 3" pot size plant.

(These rates apply only to stock shipped by public carrier. [Railway express or Motor Freight.] If your orders are being delivered by our truck, please disregard this information.)

PACKING CHARGES

There is no charge made on packing lining out stock (2¼" & 3" size plants) and Azaleas. Please remember, however, that shipping the large plants (1-gal., 2-gal. and 5-gal. sizes) by Railway Express or Motor Freight is much more expensive. In addition to the higher transportation rates, it is necessary that the 1-gal., 2-gal. & 5-gal. size plants be packed which means a packing charge of 20c for each 1-gal., 35c for each 2-gal. and 50c for each 5-gal. size plant.

WE DO NOT ADVISE PURCHASING THE CONTAINER SIZE PLANTS WHEN SHIPMENT IS TO BE MADE BY PUBLIC CARRIER.

When purchasing the container size plants (1-gal., 2-gal. and 5-gal.) we suggest using our contracted carrier service (semi) for delivery direct to your nursery. A minimum order of \$250.00 is required for this service. Please write us for complete information about our contracted carrier service and for the shipping rates to your nursery.
